The results of the voting, premised on the individual views expressed by the members of the Court in their respect opinions and/or concurrences, are as follows: 1. On the first issue involving the political-question doctrine Justices Makalintal, Zaldivar, Castro, Fernando, Teehankee and myself, or six (6) members of the Court, hold that the

Electoral Systems

The choice of Electoral System is one of the most important institutional decisions for any democracy. The choice of a particular electoral system has a profound effect on the future political life of the country concerned, and electoral systems, once chosen, often remain fairly constant as political interests solidify around and respond to the incentives presented by them.

Paradoxes of Professionalism: Rethinking Civil-Military Relations ...

Electrical engineers and computer scientists are everywhere—in industry and research areas as diverse as computer and communication networks, electronic circuits and systems, lasers and photonics, semiconductor and solid-state devices, nanoelectronics, biomedical engineering, computational biology, artificial intelligence, robotics, design and manufacturing, control and optimization

Nov 15, 2016 · Fuzzy logic is intended to model logical reasoning with vague or imprecise statements like “Petr is young (rich, tall, hungry, etc.).” It refers to a family of many-valued logics (see entry on many-valued logic) and thus stipulates that the truth value (which, in this
case amounts to a degree of truth) of a logically compound proposition, like “Carles is tall and Chris is rich”, is

I l Paradosso di Condorcet è una situazione indicata da Jean-Antoine Caritat de Condorcet, matematico e filosofo del XVIII secolo, meglio conosciuto come il Marchese di Condorcet, in cui le preferenze collettive possono essere cicliche, cioè non transitive, anche se le preferenze dei votanti non lo sono individualmente. Questo succede quando le maggioranze in conflitto sono ognuna composte

Jun 01, 2018 · Kant on causal laws and powers.. PubMed. Henschen, Tobias. 2014-12-01. The aim of the paper is threefold. Its first aim is to defend Eric Watkins’s claim that for Kant, a cause is not an event but a causal power: a power that is borne by a substance, and that, when active, brings about its effect, i.e. a change of the states of another substance, by generating a continuous flow of intermediate

A Condorcet method (English: /kəˈdɔːrset/; French: [kɛdɔʁsɛ̃]) is an election method that elects the candidate who wins a majority of the vote in every head-to-head election against each of the other candidates, that is, a candidate preferred by more voters than any others, whenever there is such a candidate. A candidate with this property, the pairwise champion or beats

Paradosso di Condorcet - Wikipedia

Pliny the Younger was born in Novum Comum (Como, Northern Italy) around 61 A.D., the son of Lucius Caecilius Cilo, born there, and his wife Plinia Marcella, a sister of Pliny the Elder. He was the grandson of Senator and landowner Gaius Caecilius, revered his uncle, Pliny the Elder (who at this time was extremely famous around the Roman Empire), and provided sketches of how his uncle worked on
